

# Episode 12: The Learner You Are Becoming

All six kinds · Learner identity · transfer

*By the end, you will see that the point was never one subject, and you will carry these moves into everything you learn next.*

## THE MOVE • The Transfer Bridge

How to carry any lesson out of the room it was learned in and into the rest of your life.

- 1 Name the principle you learned, stripped of its subject.
- 2 Find a second, unrelated place it could apply.
- 3 Try it there, on purpose, this week.
- 4 Notice you did it deliberately. That noticing is the mark of a learner who lasts.

## USE AI AS A THINKING PARTNER • copy this prompt

I learned [PRINCIPLE] while studying [SUBJECT]. Help me transfer it.

Ask me where else in my life, study, or work this same principle could apply. Then help me plan one small, specific way to use it in a completely different area this week. Keep me thinking, don't just list ideas for me.

## YOUR CHECKLIST THIS WEEK

- Pick one move from this series that actually worked for you.
- State the principle behind it in plain words.
- Find a new context it could apply to.
- Use it there once, deliberately.
- Notice that you chose to. That is transfer.

## ONE SMALL BEHAVIOUR

Take one move from this series into something it was not taught for. That is transfer, and it is where a learner becomes durable.
